

### Fleece, Rovings and Batts

Rose Haven Farm Store offers animal fibre (wool, mohair, silk, alpaca, cashmere, milk) and plant fibre (bamboo, soy, seacell, ingeo, ramie, Tencel) rovings, as well as wool felters' batts. Many are from sheep & Angora goats from our recent farm and also from Willow Garden Shetlands & Charbonnel Alpacas here in Prince Edward County and other small farms in Ontario. We offer products based on Romneys, Romney X Coloured, Arcott x, Border Leicesters and Shetlands, primarily as rovings and batts made from clean, well-skirted fleeces. Our products are often used in teaching and are intended to make creating beautiful yarns and interesting felts, a pleasure. We skirt heavily and work closely with Custom Woolen Mills to create specialty rovings and batts. The majority of our products are natural in colour, ready for dyeing. We also now offer dyed products especially from "Dyeing for Colour" and specialty non-sheep fibres, in addition to washed wool and mohair locks, terrific for needle felting.

Our latest venture is to offer knitters a Yarn Mecca, the aim to be the best specialty yarn shop between Toronto, Ottawa and Montreal. Our product line is very wide and some of the best in the world. We also carry handspun including Studiolo, our own Romney millspun, and Silver Cloud Alpaca, Hopeful Shetland and Sabin's Llama yarns. Please ask for our Yarn Price List. All our fibres are available in our shop or by mail order.

We also offer workshops in our new shop workshop area and getaway rentals in our year round log cottage on South Bay, here in Prince Edward County. See our website: [www.rosehavenfarm.net](http://www.rosehavenfarm.net).
